

The Cycle of Innovation and Entrepreneurship

The Cycle of Innovation and Entrepreneurship

The Cycle of Innovation and Entrepreneurship

The Namibia Business Innovation Institute (NBII) is part of the Namibia University of Science and Technology (NUST) since 2009. The NBII embraces the cycle of innovation and entrepreneurship by supporting innovators, inventors, aspiring entrepreneurs and the youth through idea creation, mobile app development and product and business development.

Vision: To be recognised globally as a leading institute of excellence, transforming innovative ideas into sustainable businesses and social solutions.

Mission: We pro-actively stimulate and support innovation, entrepreneurship and social upliftment through exploring, researching and developing ideas, generating and incubating successful businesses and bridging the technological divide for a globally competitive economy and inclusive society.
